

Team Masters Projects for Keck Science Theses

KSD allows its majors the option of completing their Senior Thesis requirements through participation in KGI's Team master projects, subject to application and acceptance by KGI

Participants are reminded that they are subject to all the KSD Thesis requirements and deadlines, with the sole exception of the final written thesis submission.

I have discussed my participation in the KGI-TMP program with the KSD liaison,

Professor Anna Wenzel.

I have read and understood the KSD Thesis syllabus.

I have read and understood the KSD thesis timetable and its deadlines

I understand that I am subject to KSD thesis requirements and deadlines, and that KSD deadlines are different from **and in addition to** my KGI team commitments.

I have registered my thesis details in the KSD Thesis database
