PRE-MED Courses & MCAT Resources

PRE-MED: Standard list of pre-requisite courses for medical school admissions and content areas for MCAT prep:

Intro Biology: Bio 43L & Bio 44L (can be taken out of orderBio 43L is offered fall, B offered spring.) General Chemistry: Chem 14L & Chem 15L (must be taken in order) or Chem 29L (st should plan to eventually take Chem 115 with lab at Pomona) IBC: Introduction to Biological Chemistry, covers content from Bio 43L and Chem 15 should take Bio 44L and Chem 14L to complete the series. Organic Chemistry: Chem 116L & Chem 117L (must be taken in order) Physics: Physics 30L & 31L (life science majors) OR Physics 33L, 34L (physical science must be taken in order English/Literature: In addition to Freshman Seminar (Pitzer FYS or CMC FWS) one course—Literature or Writing course (Scripps students will need to take two course not fulfill this requirement. No creative writing courses. Math: 1 semester Calculus Math30 or higher (AP credit does not count) & 1 semester (Biostatistics (Bio175 or Bio174L) OR Psych stats OR Math statistics will fulfill require 1 semester: Biochemistry: Bio 177 (cross-listed with Chemistry) or Chem 182 at MUDD or Chem at Pomona (Chem 29 students only) Introduction to Psychology for MCAT preparation & Social Science prerequisite Additional courses that students have found useful for medical school preparation (and comay be required by individual medical schools): Genetics: Bio 143 Vertebrate Physiology: Bio 132L or Bio 131L Introduction to Sociology MCAT preparation Additional courses if they fit into the schedule:
